

CONSTRUCTION ADVANCES RAPIDLY

The Lakeway residential section is growing by leaps and bounds!

According to Lakeway Land Company President, Lee Blocker, there are now 16 beautiful homes completed and occupied, ten more under construction, and some 15 new residences now in the planning stage!

"Now is the best possible time to build a home on the scenic Lakeway lot of your choice," said Blocker, "because right now Lakeway Lumber and Building Company will build for you AT COST!"

Blocker added that both hillside and level lots are available, and the majority offer delightful views of Lake Travis and Lakeway Cove.

The addition of the new Section III has made available an even larger number of choice building sites—in prices ranging from \$2,000 upwards.

A home at Lakeway offers more than the obvious beauty and tranquility: it will give you such advantages as its own country club atmosphere; year-round recreation, including a restricted hunting area; Lakeway Inn and Marina privileges, low-cost electricity, private water system, vapor ray street lights, Austin direct dial phones, permanent maintenance fund (no assessments). Long-term financing available.

For vacation, for retirement, for gracious living — many people have discovered you can't beat beautiful Lakeway!
